

CARING FOR YOUR TRUMPET

TAKING YOUR TRUMPET OUT OF ITS CASE:

1. Lay your trumpet case flat on the floor or on a table with the label facing up and carefully open the case.
2. Grab your trumpet by the leadpipe and place it in your left hand.
3. With your right hand gently push and then twist the mouthpiece into the leadpipe.

IMPORTANT REMINDERS:

There are many moving parts on your trumpet that can be pulled out or unscrewed. Never pull out or unscrew any part of your trumpet. These are for your teachers or an instrument repair professional to handle.

WHAT NOT TO DO WITH YOUR TRUMPET:

- Eat or drink things with sugar before you play.
- Place the trumpet on the floor, especially on its bell or mouthpiece.
- Swing around your trumpet case or trumpet.
- Leave your trumpet in the car or other place where it can be stolen.
- Place any object into the trumpet.
